

## PROFILE

I am currently pursuing my MCA with a specialization in Artificial Intelligence, building on my foundation as a B.Sc . Information Technology graduate from Mumbai University. Skilled in Frontend and Web Development, I enjoy creating responsive, user-friendly digital experiences while continuously expanding my expertise in AI-driven solutions.

My goal is to combine my technical skills and passion for problem-solving to contribute to innovative projects in software development and AI, while constantly growing as a learner and professional.

**Areas of Interest:** Frontend Development | Web Development | Artificial Intelligence | Software Development | Problem-Solving
